Language difficulties

About Megan

Megan graduated in Speech Pathology in Perth in 1978. After establishing and working in the Speech Pathology Department at the Albany Regional Hospital, she returned to Perth to work at the Cerebral Palsy Association, Bentley Child and Adolescent Mental Health Unit and Princess Margaret Hospital. In 1995 she commenced work in her own Private Practice which has been steadily growing and now functions primarily as a Specialist literacy clinic. Megan is particularly concerned with children in the Middle and Upper grades of Primary School and early high school who are experiencing learning difficulties due to poor literacy skills.
